THE STATE OF THE PARTY

On November 27, 1965, I, personally, tore down the first Viet Cong, Communist flag ever paraded in front of our White House, -and went to jail for it.

Six days later, (December 3, 1965, a goon-squad of Internal Revenue burst into our Arlington Headquarters, seized all our property and padlocked the building. I cannot know if there is any connection between this attack by Sheldon Cohen's tax squads and our hugely successful attack on the communists, which won us more sympathy and understanding than any other single thing the Party has ever done. But I do know that there was only ONE bookstore in the whole United States with the guts to carry my book, "THIS TIME THE WORLD", the Benjamin Franklin Bookstore, here in Washington. Almost simultaneously with the attack on us, Mr. Cohen's Tax squad PADLOCKED THAT BOOK STORE!

There is no use pretending that the tax attack was not and is not painful. It is the worst blow we have ever suffered, and it is far from over. We lost machinery and equipment which took over five years of deprivation and sacrifice to gather, we lost the Headquarters in the shuffle, we could not publish our magazine and reports for about three months and lost almost all our income from sales, ---and I lost about fifteen pounds. There may be more to come. They may agree to "settle" for a relatively huge payment (over $ 1, 400) and then regular payments, plus regular payments of the taxes they charge us on what the lads here eat!

But in spite of all, we have managed to get back into action! The presses are rolling, as you can see from this REPORT, and we will soon begin to catch up on the huge backlog of orders. I hope that all readers who have suffered delays and failures in what they have ordered or asked for will try to understand just what the boys here are going through to be able to continue AT ALL.

Meanwhile, Capt. Forbes had the rent raised to FOUR times the original amount in the Los Angeles HQ, and was forced to move from place to place. Finally, he has a beautiful new HQ which he shares with a church, now that he has been converted to British Israel and ordained.

Nazis Open Party HQ in El Monte

NAZI QUARTERS—Miss Patricia Rand and Art Bauer, Herald staffers, make early morning call Thursday at American Nazi Party quarters on N. Peck Rd. Mrs. Ralph Forbes, wife of Nazi captain, opened the door and arranged for reporters to talk to her husband. Facility is located just south of McGirk St.

Chris Vidnjevich in Chicago is going through a heart-breaking attack on our HQ out there. After almost three years of incredible effort by Chris and the other stalwarts of the Chicago Unit of ANP, including Chris working all night in a factory and then all day on the HQ and putting in ALL his salary to make necessary improvements, the city of Chicago, (the Jews), have hit him with the usual zoning "violations" and demands that the HQ be torn down in 30 days, --although no such "violations" are discovered in any of the buildings all around ours, which haven't been improved, as has the Chicago HQ.

Perhaps the most important news at this period, aside from our survival of the tax attack, is the final smashing of the Jew "paper curtain." As usual, we had to take, and will take in the future, a beating to do it, but it will be well worth it!

As you receive this issue of the ROCKWELL REPORT, the April Issue of "Playboy" magazine should be on the newsstands. If it is, go and get one before you read the rest of this article, because we are in it, and I want to tell our people the truth about what was really said, as opposed to what the ten million readers of Playboy will be told I said.

Let me tell you the whole story of this interview in Playboy, because there is a whole education in how these slicksters operate.

About two years ago, I received a letter from an "Alex Haley", in Rome New York, stating that he had been assigned to interview me for Playboy magazine, and asking for an audience. He didn't mention that he was black.

I agreed to this interview, although I discounted any possibility that the interview would ever appear. I have taped and filmed too many interviews and given too many personal interviews to Life, Look, Time, NBC, CBS, etc etc, which never appeared, to believe their "positively"'s anymore. But I knew that there is such fantastic interest in the Party and my activities that, sooner or later, SOME element of the mass-media would be unable to resist the temptation to USE us for the huge readership it would provide.

So, on the appointed day, Mr. Haley arrived with a photographer --also black!

....the usual fast shuffle. I was supposed to be sent into raging "orbit" by these two coons and provide them with the kind of "hate" copy they wanted.

The interview lasted two full DAYS, and I have every word of it on tape, in case any hardy reader wishes to come here and audit these records to assure himself that what follows, the incredible story of this interview, -is factual.

I was told that they would merely condense my answers to give an accurate picture of what we preach and believe.

During the two days, Mr. Haley was treated with professional courtesy, and duly taken out of my office to eat in restaurants, since he was informed that courtesy did not extend to eating in our poor but proud mess-hall. Haley was a hard nigger to hate. He was gentle, friendly and old-fashioned about being a black man, and even my hardest-nosed ex-Klansmen got to liking him. So did I. I told him we gave special treatment to "V.I.P"'s (Very Important Persons, as we used to call them in the Navy), and that we would therefore appoint him a "V.I.N." --a Very Important Nigger. Haley now signs his letters to me, "Alex Haley, V.I.N."

Haley had just written the "Autobiography" of Malcolm X, and we had lengthy discussions of Malcolm, whom I admired, even though he and I were heading eventually for a showdown with guns. It was impossible for me to believe that Haley would be too dishonest in writing about me.

But I still did not believe for one moment that ANYTHING would be printed in such a huge circulation magazine as "Playboy". (They sell more than eight million copies a month in the USA, Haley told me, and another million overseas. Since such an expensive magazine is usually read by several people, that is a readership of between ten and fifteen MILLION people reached by the interview!) In spite of my strong conviction, at the time, that the Jews would NEVER permit any kind of interview, even the most twisted, of me to so many millions, I patiently went through all the motions, as I have so many hundreds of times. Sooner or later, I knew, we HAD to bust through!

The black photographer took literally four or five hundred candid shots while I was talking, and I recognized the familiar pattern of waiting until I was in some grotesque position with odd lighting, etc, to produce the usual "monster","up-the-nostrils" shots. I haven't seen any of these as I write this, but I can just imagine what they will be.

Haley told me the usual proceedure was for him to write up the interview, send it to Chicago where it was edited, after which I would receive the "galley" proofs, (long sheets with the linotype slugs as they will eventually appear in the magazine) for my inspection and approval or for any changes I wanted to make. I should get these proofs in a month or so, he said, and the magazine would be out in about three or four months.

Weeks and then months went by, but no proofs showed up. Finally Haley wrote me that we were being postponed a month or so, for this or that new rush story.

Soon the months had become a year, and I filed the experience away along with Esquire (who PAID me hundreds of dollars for a story they never dared print) and all the other aborted mass exposures of the Party.

Tnen came an urgent letter from Haley. Could I meet him for one more day of solid interview? The interview was finally "finalized," would appear in a few months, and would I help him "up-date" it. Still thoroughly disdainful of such assurances, but still determined to leave no stone unturned to reach the masses, at last, I agreed. So we spent another WHOLE DAY with me answering hundreds and hundreds of questions.

Another period of months went by, -and the interview again "died". I was not surprised.

Then came a long distance call from Haley. He was coming down to the White House to visit "our" president (I was still not surprised) and the editors of Playboy had finally scheduled the interview, for sure, this time. Would I grant ONE more interview to "up-date" the whole thing?

I went along with this one too, as I always do, since we have little to lose, and everything to gain. Another long tape of questions and answers. During this interview, the fourth DAY spent on it, Haley told me that all the other interviews take a maximum of one or two days, and that Martin Luther Coon's interview in Playboy was reproduced almost exactly like it occurred, word for word.

By this time, it was obvious that the Rockwell interview was getting "special handling", to say the least. But Haley insisted otherwise.

This time, after about a month, Haley sent me a rough outline of the interview he'd written up together with a request that I answer some MORE questions, this time sending him my own tape. The first draft of the interview by Haley wasn't too far off, and I began to be hopeful something might come of it all. So I went along again.

The next thing I heard was when I stopped in a phone booth out on the Texas plains in the midle of a howling blizzard, to call HQ as I always do.

NOTICE

Because of the IRS attack, the Dec., Jan., and Feb., issues of the Rockwell Report were not published. Therefore, all subscriptions will be extended 3 months.

(We were on a trip speaking at colleges in New Mexico and Texas, driving the Camper). HQ told me that there had been several "urgent" calls from Chicago offices of Playboy, and would I call the editor right back, collect.

I did. It was Murray Fisher who does the interviews for Playboy. After two YEARS, he told me they were in such a rush that they couldn't wait to send me galley proofs, as promised, but would I be good enough to LISTEN to the manuscript while he read it to me long distance, out there in the blizzard and the isolated phone booth. I could see then what a slick operation THIS was, and called a halt. I was willing to take a lot to reach such a vast audience as ten to twenty millions, but this would have been such a railrod job it wasn't worth it. I told him I'd go to another phone booth, INSIDE, and tape the whole thing, and then call him back in the morning, after I'd had some chance to THINK.

So, with his permission, I taped the whole conversation, with him reading me the MS.

Rather than TELL you what he said, I will reproduce one of the more incredible parts of that two hour conversation between Texas and Chicago. Before he started reading to me, he knew I would be shocked, so here's part of what he said:

FISHER (for Playboy): Before we begin, though, as I said, you know, in our last conversation, in order to make this as, you know, ah, -you know, try to shape the enormous quantity of material, ...

ROCKWELL: Um hunh

FISHER: ...we got together into some semblance of a, you know, a, --uh, --ah....

ROCKWELL; "coherant order"?

FISHER: Coherant, sequential order, with the maximum impact, ...

ROCKWELL: Yes.

FISHER: ...you'll find that in places I have paraphrased you, ...

ROCKWELL: Yes.

FISHER: ..and I've condensed and distilled, and, in fact, here and there, ..with your, ha ha, -with your permission, you'll find stuff that may be totally unfamiliar to you.

ROCKWELL: Well, ah, --I. . . .

FISHER: I think, -I think, -if you'll sort of regard it as a SCRIPT, --in other words, -you know, -the idea is. . ... .I've paraphrased,

condensed and sometimes, CREATED. . I've done, you know, for the purpose of either creating transitions or, or condensing, and I think, for the most part, you'll be PLEASED with some of the stuff that's been done. (!!!!!)

After this soft-soap, there followed more than an hour and a half of straight reading. (Haley and Fisher both told me it's the longest interview ever published by Playboy).

I was appalled, thunderstruck at the "creative" "stuff" they'd written as coming out of my mouth! Had they sent me the galley proofs as was promised, I could have torn it all to pieces and set it straight, with the whole thing before me. As it was, I had to try to remember it all from a tape, and then call in "corrections" the following day. I could, of course, have refused permission to publish anything at all. But I decided against this because there was so much to win, and so little to lose, no matter WHAT they printed. So I stayed up late that night, and got up early the next morning working on the corrections. The camper, parked out in the howling Texas blizzard, was too cold for work, after four or five hours, so I went into a public rest-room on the road and worked in there till I had some kind of sense made out of what they'd called over the phone to me. There was no time or way to write out the whole thing or my corrections, so I had to dictate them on the same machine I used to pick up and play the tape of the call to Chicago. I mention all this so that those who are too eager to jump on us over the use of this or that particular word, when another would have been better, will try to understand just exactly what a struggle it is to get ANYTHING before the public when it involves Jews.

Finally, I called Chicago back the next morning and played back the tape of the dictated corrections. I was still dubious of the value of the effort, but I was determined to do my utmost so that they could not get away with anything. The call took more than two hours, this time, and I was soaked with sweat when I finally hung up.

Next I received, not galley proofs, as had been promised first, -but PAGE proofs, along with the amazing little note which I am going to have printed just as I got it from Mr. Fisher. Note that I am told the "presses are rolling", which may have been true, since a full color magazine which is printed and distributed in the multi millions must be run off months ahead of time.

Once again, I could have stopped the whole thing even then, because they wouldn't dare print and distribute such a strong interview without a "release". I had my choice. Either stop the whole thing, or let it go as was.

from MURRAY FISHER 2-7-66

Dear Commander:

Here are page proofs of the interview as promised, revised along the lines you stipulated. By the time you receive them, unfortunately, the presses will already be locked up and rolling, so I'm sending them at this point not for correction or further revision but merely to reassure you that the changes you specified have in large part (though not in toto, as I told you on the phone) been incorporated.

In any case, I'd be most grateful if you could read them over immediately and return them--initialed on each page--along with the enclosed release, which I'd appreciate your signing.

Many thanks.

Murray Fisher

I read the proofs.

Amazingly, they had made many of the corrections I had asked for! There were some things, however, that they simply would NOT print! And other things they wouldn't take out, even though it misrepresented what I actually said. I learned a lot from these things, and will mention them later, but for now, I will say that, all in all, even allowing for the smears I will take, I think we were wise to go ahead and let them print.

For those who feel that Playboy is too evil and despicable for us to permit them to print an interview with us, let me remind our readers that Playboy is not only read by more millions of people than we could reach in twenty years of passing out "literature", -but Playboy is read by the YOUTH, more than any other magazine. Where most young people scorn our "literature", -they will devour every lurid page of "Playboy" -including the interview with the "terrible" George Lincoln Rockwell, just as they jam every speech I give on the college campuses. And it is precisely on college campuses that Playboy is biggest. Let me also point out that the interview should produce many, many new invitations to colleges and universities. At an average of $ 500 per speech, which I can get after the interview, that's nothing to sneeze at.

Further, one of our biggest single problems, as both the Jews and old-timers in the fight know,

is publicity. Just as with TV and movie "stars", political "stars" depend for income and effectiveness on a continuous national uproar. Knowing this, the Jews have applied to us the most brutal kind of blackout, --which keeps us literally starving, when a lot of national publicity will bring in not only new members and sympathizers, but MONEY.

Knowing this, which one of our readers will "cast the first stone"?

The Playboy interview will go a long way toward making further Jew blackout of our activities impossible. Sooner or later, the repercussions of the Playboy piece will bring us the national TV coverage which have made multi-million dollar organizations out of Welch, the Black Muslims, Hargis, etc.

Now for a brief description of the most notable examples of twisting, omission and "creation", as Playboy editor Fisher calls their "interview" with me.

One of the most shocking examples of the way they deprived me of all ARGUMENT, -and left only what appear to be "wild statements" was what they did to my claim that the Founding Fathers were not only NOT "democrats", but that they did NOT believe all men are created "equal", and they considered niggers as less than human. When they asked me for proof of that, I quoted the U. S. Constitution, Article I, Section 2, which decrees that nigger slaves will be counted in the census only as "three-fifths" of a person.

Fisher flatly refused to mention that startling piece of information in my answer. So help me, when I asked why not, he replied, "It's too controversial! If we let you put that in there, we'd have to refute it and it'd take too much space. We can't leave that in."!!!!!

The Constitution too "controversial"????

On Page 76 of the magazine interview, they would not let me show the RED records of the Jew anthropologists. In the lower right-hand corner, notice where they ask me why the Jews are pushing the "civil-rights" revolution. I exposed the fact that in every commie revolution, the Jew press of the world hides the fact that it is a COMMIE revolution and calls the revolutionists "agrarian reformers", as in China and Cuba, and "civil rights" fighters, as in the USA Communist revolution.

This was another case of Mr. Fisher's telling me that such a fact was too controversial, and that it couldn't be printed because then Playboy would have to "refute" it and it would take too much space.

On Page 77, I quoted Malcolm X as authority for the fact that most of the nigger organizations are run by and financed from behind the scenes by Jews. Malcolm really laid into the Jew fakers, but I notice that the press, the publishers of Malcolm's "autobiography" conveniently skip over this. And Playboy won't let me mention it, because most niggers really respect Malcolm, (as I did, for telling the truth), and the Jews are already having enough trouble with "anti-semitic" niggers.

On page 78 when they asked me if I had any evidence for the statement that the riots are promoted and caused by Jews, I named Leo Rosen, the Jew boss of Progressive Labor, -whose minions have been indicted and convicted of inciting riot in New York City, and "Progressive Labor", led almost 100% by Jews, -and Jewesses like Bettina Aptheker, is always in the forefront of racial agitation to violence and bloodshed. Playboy would not print such facts.

On the same page, when they asked me why the Jews would be engineering riots, even though they themselves are often the victims, I pointed out the paranoiac nature of the Jewish delusions of Grandeur, (that they are God's Chosen) and their delusions of persecution, that everybody "hates" them for no cause, and the resulting insane Zionism and communism which results from this mad dream of world conquest. Playboy would not print this either.

At the end of page 78, they put an utterly stupid argument in my mouth about the Jew "soap" made by the wicked Germans. What I ACTUALLY said was that I have the same, exact picture, used by the Jews in their sob-story pictures of a bottle of Jew soap, printed by the communist North Koreans, only this time the same bottle and the same photograph is supposed to be GERMS we were accused of dropping. The photograph appears in a US Senate Internal Security Subcommittee document on Communist propaganda, and is a photostat of some of the filth dropped on our troops by the red liars. Playboy would not print that fact. Instead they have me saying, "that soap could have been melted down from a dozen bars of Lifebouy"!!

On page 79 I got in a list of the flocks of Jews convicted of communist treason. Playboy says, "The total number of convicted spies who you say are Jewish comes to 33. That's far from hundreds of thousands."

Anybody who has ever heard me speak one line about the subject knows I would and DID instantly answer that you don't have to drink a whole quart of sour milk to know it's sour, and when only 1 or 2 percent of the population, -the Jews, provide more than 80% of the spies and traitors, there is valid basis there for a statistical conclusion that Jews have something to do with Communism. Playboy neatly leaves out that unanswerable reply, and

quotes the ONE mistake I made in the interview, -when I quoted what I believed were unimpeachable sources that Rabbi Wise once said, "Some call it communism, I call it Judaism".

When I tried to track this quote down, I found it CAN NOT BE DOCUMENTED. Maybe it was made, but the greatest researcher I have ever known told me he'd spent weeks tracking it down, and the "sources" just don't check out!

This is something our side ought to be ashamed of. We have plenty of truth. Why in the name of sanity must our side tell even one lie? Yet I have seen that Rabbi Wise quote in the most respectable publications on our side, and I fell into the trap of using it in the interview, only to have to "retract", --before ten or so MILLION people!

They refused to print the long list of black men who took white wives which I gave to show that niggers DID want sexual mixing when they can make it, -and, even more important, they would not let me name all the big-shot coons like Eward Brooke, Weaver, Elijah Muhammad, Harry Belafonte and the dozens of others who were obviously NOT ACTUALLY BLACK MEN, but White men with a very tiny bit of Negro blood.

There were many other examples of the way Mr Fisher and Playboy emasculated the interview, but in many ways that's GOOD, not bad.

I think, as a result of the interview, I will get lots of invitations to speak and appear on TV, etc. Suppose they had let me print all my best arguments, instead of leaving them out. I think there is much less chance of being invited on these shows and to these speeches if they are AFRAID of you. As it is, the interview contains enough facts to be provocative to millions and set them to thinking and wondering. And, at the same time, they have made me look foolish enough so that the contrast between the image in Playboy, -and the rest of the press, -and what we really are when I get a chance to talk directly to people, --will be a powerful shock! I can also point out the FACTS Playboy wouldn't print, some of which I have listed here.

Since Fisher gave me permission to tape the call he made to read the interview for corrections, I can also play that incredible little part of the call where he tells me how he "created" parts of the interview, "things that will be totally unfamiliar to you", as he put it! Can you imagine a vast college audience listening to that sensational bit?

I doubt there will be any of our readers who will not understand the factor of "calculated risk" I took in allowing the interview, knowing the way it would misrepresent our facts and arguments, but for those who have ANY doubts, I ask them to ask themselves how ELSE would we reach more than TEN MILLION young Americans, especially in the colleges, -kidswho have never seen and never WILL see a single piece of "right-wing", truth-telling literature about the Jewish and negro questions?

With all the kicks we will take in that interview, I am happy to say the Jews got MORE kicks. Even if it were 100% misrepresentative, which it is not, -it would still be the greatest blow we have yet been able to strike against the enemy simply because it smashes the daylights out of Dr. S. Andhill Fineberg's "quarantine" treatment of us "anti-semites". It will finally convince the Kikes that they may be able to lie about us, --but they simply CAN'T HIDE US ANYMORE.

Meanwhile, thanks to the almost incredible courage and sacrifice of a small group of people, especially a lady who lives like a church-mouse and has laid her life literally on the line for our race and nation, and another man who works a farm and makes do with a pump and privy, when he could pamper himself with luxury, we have been able to set up a printing and production operation on a secure piece of property about eighty miles south of Arlington. We have also, since I commenced dictating this report, been able to settle with Internal Revenue for a large payment, plus regular payments, plus keeping current with the taxes they claim.

Also, as I dictate this part of the REPORT, the STORMTROOPER is off the presses and is being feverishly put together by dozens of willing hands working all night, as we always do. It is, in my opinion, the GREATEST single piece of propaganda for White Christian America EVER produced, and I am going to move heaven and earth to print at least fifty thousand of them and distribute them simultaneously all over the Nation. (More on this project to members and supporters later).

More good news has developed in New York, of all places, where I was seized on February 9, on the way to a speaking engagement at Columbia University. The Jews invoked a six-year-old warrant against me, which they have never dared use before, since the thing is worse than ridiculous. It was sworn out against me by a Jew named Lester Fahn, a Jew War Veteran, who claims that I threatened to gas HIM, while I was giving an interview to the TV in the rotunda of the Supreme Court of New York, back in 1960, when I went up there to New York alone to fight a Jew injunction against me.

When the interviewer asked me if we were going to gas anybody, I told him truthfully that I expected that it would be necessary to gas ALL convicted TRAITORS, as I always do. Fahn thus pleads "guilty" to being a "traitor", if he claims

that I was threatening HIM, --when the fact is I never knew this ugly little Hebe EXISTED until the warrant was reported to me. But Mr. Fahn was a member of a mob of three or more hundred hebes which ATTACKED ME in the middle of the TV interview!!! They were shouting "Kill him! Kill him!", --the same cry raised by these love-mongers two thousand years ago, and ever since whenever anybody started telling the truth about Jews. All of this was on TV and radio, -nation-wide, in 1960. It was my first national publicity.

The warrant was issued by a Jew judge in Brooklyn named Friedman. This noble Hebrew dispenser of "justice" has since been IMPEACHED and kicked off the bench for financial hanky-panky, --and then DISBARRED. Nevertheless, the warrant had the force of law behind it, and it ominously directed something very unusual. It ordered any police officer in New York State to seize me and convey me, not to the nearest jail; as is usual, but to one PARTICULAR jail, the Tombs, on the LOWER EAST SIDE OF NEW YORK CITY. This notorious hell-hole is run by niggers and Jews, and is full of the kind of Murder, Inc. Jews, who would do ANYTHING for a buck, -and would see that I "fell out of a bunk" in that jail, just for pure PLEASURE.

THE NEW YORK TIMES,

Rockwell, Here for Talk, Seized on '60 Warrant

1,500 Lined Up at Columbia to Hear American Nazi— Jewish Lawyer Retained

By EDWARD C. BURKS

George Lincoln Rockwell, leader of the American Nazi party, was arrested on the street here last night on a 1960 warrant charging him with disorderly conduct.

The 47-year-old Rockwell, who has made a career of baiting Jews and Negroes, later appeared in a night session of Criminal Court before Judge James L. Watson, a Negro, and was defended by a Jewish lawyer, Martin M. Berger.

While the police made the arrest outside 382 Central Park West, 1,500 persons were lined up for two blocks outside a Columbia University auditorium where Rockwell was scheduled to speak.

The Nazi party leader put up a $100 cash bond and was released for an appearance this morning at 9 o'clock in Criminal Court.

The warrant, a citizen's complaint dating from a raucous appearance here in 1960, charged him with inflammatory and offensive remarks constituting a breach of the peace.

Lester D. Fahn of 50 Court Street, Brooklyn, swore out the 1960 complaint after hearing remarks by Rockwell that angered a crowd gathered in the rotunda of the Supreme Court building in Foley Square. According to Mr. Fahn, Rockwell at the time said such things as "Hitler didn't do enough," "All Jews should be exterminated," "Crematoriums should be built in the United States," and "Negroes should be exported to Africa."

The incident occurred during a recess of the court at a time when Mr. Fahn and others were seeking an injunction to prevent Rockwell's scheduled July 4 appearance at Union Square.

Rockwell's scheduled appearance last night was closely guarded.

A small army of police and plainclothesmen, including 18 mounted policemen, had turned out on Broadway at 116th Street outside Columbia's McMillin Theater to keep order. More than 150 pickets tramped up and down the clammy sidewalks protesting Rockwell's appearance, which had been scheduled by Humanitas, a student group in the School of General Studies.

The group, headed by Dotson Rader, had previously sponsored a speech by Gus Hall, American Communist leader.

Rockwell had gone to Mr. Rader's apartment at 392 Central Park West, not far from 100th Street, before the meeting, and was seized by plainclothesmen when he left.

"We feel that the university security police must have leaked his whereabouts," Mr. Rader said.

University authorities had given their approval to the Rockwell speech in accordance with a long-standing rule permitting any recognized student group to invite any speaker, controversial or not.

Ordinarily, even this wouldn't worry us too much, since I could get right out on bail, and the case is a farce. But every time our lads have been grabbed in New York City, Philly, etc, they set the bail at ten or fifteen thousand dollars. This has happened EVERY time, and we expected, therefore, that I would never live to trial, if I were seized on that warrant, since we could never raise such bail.

However, after six years during which they didn't serve the warrant when I went to other parts of New York, I figured the Jews figured the warrant was either no good, or they figured the publicity would be worse than the chance to get me. But we figured without the incredible stupidity of the Hebe "War Veterans". The ADL and the smart Jews, we have since learned, wanted no part of serving that warrant to stop me from speaking, because, as was predictable, such tactics made the students and liberals mad as the devil. There was a knock-down-drag-out battle among the Hebes, but the "War Veterans" prevailed, because the warrant did exist, and the police HAD to serve it, when pushed, as they were, by God's Chosen tribe.

However, because of the crossed signals and disagreement among the Chosen, when I got hauled to the "Tombs", things didn't work out as they planned.

First, some decent police officials saw to it that I wasn't tossed to the ravening herd of scum in the "tank" three floors undersground in the "Tombs" when I was taken there. Instead, I was put in solitary, where I was safe, until I was hauled out to "night-court".

Then, to my eternal amazement, I was brought before a coon judge, instead of the expected Jew.

The coon was a sincere liberal type, and gave a little lecture about how a few weeks before, he'd had Mike Quill up before him and set his bail at only five hundred, and by heaven, everybody in HIS cou't was going to get "EQUAL" treatment, even George Lincoln Rockwell. The Jews were there literally HOWLING for enormous bail, and it was a pleasure hearing and watching the Jew reaction when the coon judge gave them a dose of their own "equality" stuff, --in MY case!

In the middle of this farce, an hysterical hebe leaped up and charged at me, shouting, "the only good Nazi is a DEAD Nazi!", -but the cops grabbed him before he could accomplish his purpose. Needless to say, no charges were filed against this kike. (Can you IMAGINE what would hap-

Rockwell Arrested

Rockwell was picked up just before making a scheduled speech at Columbia. Story on Page 58.

pen to ME if I were to leap up in a Court and go after a Jew shouting, "The only good Jew is a DEAD Jew!"??)

All this, of course, makes it sound like a regular "ball" for me up there, but I can assure you it was no fun at the time. When they hauled me off in the wagon for the "Tombs" I thought it was my last ride, and so did Captain Patler. We had tried to get TWENTY-THREE lawyers to take the case without success, even with help from the kids at Columbia who invited me to speak. Finally, Captain Patler recalled that on the Long John Knebel all-night radio show a few months earlier, (which was never broadcast, only taped), -a Jew lawyer named Berger had sworn he was so devoted to free speech that he would defend me if the case ever came up. John called Berger, and, after some hassling, got him to come and defend me.

Let those who always tax me for accepting such help explain what THEY would do, when no other help is possible. Elizabeth Dilling, for instance, is always screaming about my getting help from the ACLU Jew lawyers, -but her own son is a lawyer, and HE wouldn't help me even if the Jews were nailing me to a cross. Neither will any of the other "conservatives" or "Jew-fighters" who so cavalierly cuss me for getting help where I can find it when life itself is at stake.

And I can tell you that life WAS at stake in that New York City situation, (and still is. They can still finish me off up there, and I have to make more appearances in the same case.)

As the jailors took me down those three flights of ancient iron stairs, three decks down into the bowels of the earth on the Lower East Side, I could see the two huge nigger guards waiting for me below, and hear the black and mongrel animals in the "tank" down there hollering how they would see if I was so "tough", etc.

It was as scared as I have ever been. It is one thing to face mobs and fights in the open, and another to be thrown helpless into a CAGE full of doped-up niggers, jew gangsters and plain animals, three stories down in the earth!

However, the worst of this danger has been finally faced and overcome. They can still raise the bail to a fantastic sum, but the publicity would look utterly ruinous to the Jews, and I doubt they'll dare do it, now that I've returned up there three times under the present bail. That case kept me out of New York, for lack of bail, for five YEARS. Now I am free to come and go in New York, -and free to organize and speak up there, as I shall do.

Faced with this possibility, the Jews have

come up with a NEW harrassment.

While I was before the Court for the third time last week, they served me with a subpoena from a New York State Legislative committee, and commanded me to surrender ALL our records, documents, letters, etc. !! This would seem to be arrogance enough, --but not for the Kikes. (The subpoena was signed by "Senator Irwin Brownstein, Chairman") The subpoena was served on me while I stood before the court, (which confers immunity from service of process), --and I was commanded to get and deliver ALL our records and documents within less than twenty-three HOURS!!!

After my court appearance, I get ready to fight this new threat alone. Brownstein excused me until the 26th of March, and I went down to meet James Madole, who, along with the Birch Society, was subpoenaed to the same hearings. While talking with Madole, I met his ACLU lawyer, -and the later offered to represent me, too. (Here we go again). The ACLU can't permit the Jews to grab MY records or throw me in jail for contempt, because if the Jews can do it to me, then our side can do it to the JEWS and NIGGERS! (As they have tried to do in Southern states).

The upshot of all this is that the Jews are at each other's throats over the whole bedlam in NY, with the stupid Jewish oafs in the "War Veterans" threatening to murder my slick ACLU Jew lawyer, while the ADL Hebes are yowling at the beanie gang in the JWV to "shut up you schmucks, you're making a martyr out of Rockwell, --and Berger!"

Both the Court case and the "Hearings" business will back-fire on the Chosen terrorists, with the Jews in the ACLU forced to HELP us beat their pals on the other side!

We're back in business PRINTING and producing, we've weathered the terror in New York, we've survived the IRS attack, our publications are out and booming, --and.. . . .

published in North America. We have tried to produce this desperately needed intellectual organ for years, but not until this man was willing to commit his whole career to it were we able to overcome all obstacles and PRODUCE it.

He has spent many months and lots of money gathering and editing the most magnificent prose I have yet seen ANYWHERE, -including German material, -on National Socialism. This quarterly journal will FORCE acceptance by its sheer perfection of thought and presentation in the university and college community, and will deprive the Jews, once and for all, of the pretense that National Socialism is nothing but an excuse for a gang of hoodlums to murder and terrorize nice, innocent Jews and liberals.

To sum up, I can say that never in seven years has the Party made so many breakthroughs in so many important areas in such a short period!

The tiny band of faithful supporters who have made all this possible are about to see their years of sacrifice and dedication PAY OFF.

To those who have made these victories and potentialities possible, I cannot convey the depth of my gratitude. The folks in Dallas, Kentucky, Los Angeles, New York, New Orleans, Chicago, Boston , Seattle, San Francisco and all the other places where brave men and women have backed us with their savings and their safety, --(And they will all know who I mean), have made possible a leap ahead in the next year which will be hard to believe.

From the bottom of my heart, and from every one of the brave young men and women fighting at my side for a White, Christian America, I can only say, God bless you all!

Jew Mutual Admiration Society

Once you know how the Jew conspiracy operates, it's amazing how you can forecast exactly what the mind-twisters will do.

When a program called "Bonanza" first appeared on TV, I noticed the unmistakeable kosher flavor even stronger than on most TV shows (all of which are loaded, of course). But in "Bonanza" there was more "tolerance" (for evil and race-mixing, etc.), more "love" when the shooting should have (and would have, in the real West) begun and more hose-nosers than the average kosher hoss-opera.

Next came the "raves" from the kosher critics and press. Especially "Lorne Greene" (I haven't yet been able to get his real, Hebrew name) was put on the covers of national magazines, lauded to the skies by all the rest of the "tribe"--and made into one of our Yiddish, ersatz "heroes".

After all this, I knew he was Jewish and that he would begin to "endorse" race-mixing marches and peace-creep activities.

He did.

There is no national oozing of the pus of "brotherhood" and "peace" at which the Jew-manufactured "star" Lorne Greene and his ilk do not show up to squeeze the boil a bit.

Finally, here in the "Jewish Floridian" is the proof which validates all the rest.

LORNE GREENE

TV Star Due

Lorne Greene, star of the television series, "Bonanza," will be a special guest of honor at the Ambassador's Ball this Sunday evening at the Fontainebleau Hotel.

The television star, who achieved fame as a Shakespearean actor in Canada prior to turning to television, has been a dedicated supporter of the State of Israel for many years, and was the recipient of the Canada Israel Award in 1961 and the Man of the Year Award in Montreal in 1964 in recognition of his service on behalf of Israel.

WHAT MAKES

Jewish organizations recently have come out with many studies on the factors in the backgrounds of persons they call "anti-semites" which leads these individuals to paint up swastikas, turn over yiddish gravestones, jerk the beards of rabbis and otherwise indicate failure to appreciate and love Jews in a proper manner.

These Jewish studies, however, have failed to make similar studies of what motivates the young anti-Nazi hoodlums who gather in large numbers at Nazi rallies and demonstrations and try to kill or maim Nazis, thus displaying a failure of social adjustment and lack of love of free-speech.

The American Nazi Party, therefore, to provide background information on anti-Nazi hoodlums, retained the eminent Dr. Student von Judenscheiss, who has produced the following scholarly document on the scientific motivations of anti-Nazi Hoodlums.

Preface and Introduction

This report is based on interviews, surveys, urinalysis and other investigations of juveniles known to entertain anti-Nazi sentiments, together with examinations of their family backgrounds.

Those studied are representative of all sections of the Country and all social and economic levels in the Jewish community, from stock-market manipulators to white slavers and corporation executives of Murder, Inc.

Because of the general similarities of the youths studied, the Committee on Credentials has chosen two case histories as completely typical of the statistical mean of these Jews, which was found to be pretty mean.

These two case histories are quite representative of each of the two general categories of anti-Nazis discovered in these findings. The first such category are the MENTALLY SICK; the young Hebrews who get a sort of twisted sex-satisfaction out of their maniacal anti-Nazi hate. The second group consists of those Jews who know better, but are too mentally WEAK to resist the atmosphere of anti-Christian hate which seethes in Jewish Ghettoes.

It is significant that 96.44 % of those in the first category come from Kashruth Yiddish homes of Russian or Polish origin. This indicates the importance of the environmental factor in the development of this warped type of personality.

One hundred percent of those who fell into the second characteristic pattern, the WEAKLINGS, were found to be either Jews trying to act like Gentiles, and, in many cases, shabez-Goy Jew-lovers trying to act like Jews.

In the course of these investigations, Herr Dr. Student von Judenscheiss and his staff came across innumerable heart-breaking cases of young men and women who could clearly have been rehabilitated by a few years at a Nazi re-training center, but who have been prevented from such an opportunity by bigotted anti-Nazi officials in the highest levels of our government who insist that there is not only nothing wrong with a young Jew or Gentile who joins a mob to try to club and stomp to death Nazi speakers and demonstrators, but who insist that such violent and criminal conduct is actually a mark of high idealism and heroism. Dr. Judensheiss feels very strongly that there will be no hope for helping these warped little anti-Nazi hoodlums as long as any traces of this anti-Nazi hate and prejudice is allowed to exist anywhere in America.

Now, here are the two most typical, -and pitiful, -cases of young, delinquent, anti-Nazi hoodlums and their backgrounds:

The MENTALLY SICK: . . . . . .
Alfred E. Neuman:

AN ANTI-NAZI ?

Alfred E. Neuman was first brought to the attention of the committee when it was learned that he headed a group of so-called, self-styled "Zionist Assassination Squad". The group patterned itself after the notorious Jewish Irgun Zwei Leumi terrorist gang in Israel which murdered so many British soldiers. Each group member, in typical paranoiac fashion adopted a code name in emulation of certain, self-styled, so-called Zionist "heroes", such as "Generalissimo Golda Meir", "Stern the Goy-killer", "Mickey Cohen", Jake, "Greasy Thumb" Gurrah, Julius "the Spy" Rosenberg and other Yiddischer "heroes".

At first young Neuman's teachers could not believe that the boy could be involved in such hateful and bloodthirsty activities, because Alfred had gained such a notorious, school-wide reputation as the class idiot. However, during a "brotherhood shakedown" of student lockers for marijuana, Sten Guns, etc, authorities turned up a list containing the names of General Walker, Robert Welch, Emma Zilch and Adolf Eichman in young Alfred's locker. After questioning, Neuman admitted to a fantastic plot to kidnap these people and take them to Brooklyn for "trial" and hangings.

While young Neuman, in the fashion typical of these anti-Nazi bullies and hoodlums, was arrogant and brutal when leading his gang in kicking around little old-lady Nazis and helpless little girl Nazis, Neuman was disgustingly cowardly during the interrogation, and kept crawling around the feet of the committee members kissing their toes and swearing up and down that he loved Nazis and meant his activites only as a "joke". (This defense mechanism has been found to be an almost universal syndrome among these sick, cowardly anti-Nazis)

At a mercifully closed hearing in Juvenile Court, it was recommended that young Neuman be committed for observation. Alfred was found to be typical of so many unhappy youth hypnotized by the Kosher siren song of hate; -he was a drooling idiot. Like so many others who commit anti-Nazi acts, Alfred came from a broken home.

Before the child could read, he was subjected to listening to bitter quarrels between his parents. His mother was a hard-core Marxist while his father was a bearded, fanatic, orthodox Zionist. The two quarreled eternally over the best way to enslave or exterminate the non-Jews, leaving poor little Alfred to grub for Matzoh crumbs on the floor.

Rejected by the family, little Alfred became increasingly hateful and anti-social. During passover his parents kicked him out of the house for not being Kashruth and Kosher Parve. The idiot Jew boy would crawl through Christian areas painting six-pointed stars on Unitarian churches.

After a divorce, his mother would shuttle him around from one group of friends to another. His early years were spent either in communist cells or Zionist hate-groups. But nobody wanted little drooling Alfred. One front-group after another kicked the boy out. Finally, as a last resort, he was sent to live with his grandparents, both of whom had been gassed and cremated in Hitler Germany, so naturally young Alfred was exposed to much bigotted talk.

Then, for a while, it appeared that he might at last be saved and grow up to be a normal, respectable, liberal Jew race-mixer. He was taken in by a local herd of NAACP'rs, who thought he was some kind of retarded albino ape because of the hair all over his sad little drooling face. For the first time, the boy felt "loved and wanted". In this secure atmosphere, he developed a boyhood crush on Martin Lumumba King. Had nothing further happened, he would doubtless have developed like other ordinary, homosexual liberal lovers of the inferior races.

However, Izadore Neuman, Alfred's Zionist father, was very intolerant and hated the liberal, Trotsky-oriented education the boy was receiving from his mother's colored friends. So Izzy kidnapped Alfred and smuggled him off to Grossingers in the wilds of the Catskills. Being thus yanked out of his first real "home" and losing all opportunity to meet his hero, Dr. King, Alfred suffered severe emotional trauma and began to have nightmares in which he found himself impersonating a cake of soap.

While still suffering from these soap nightmares, at the impressionable age of only ten, young Alfred was dragged to a Rabbi and a Mohel by his Zionist father and mutillated so as to be entirely "Kosher" at last.

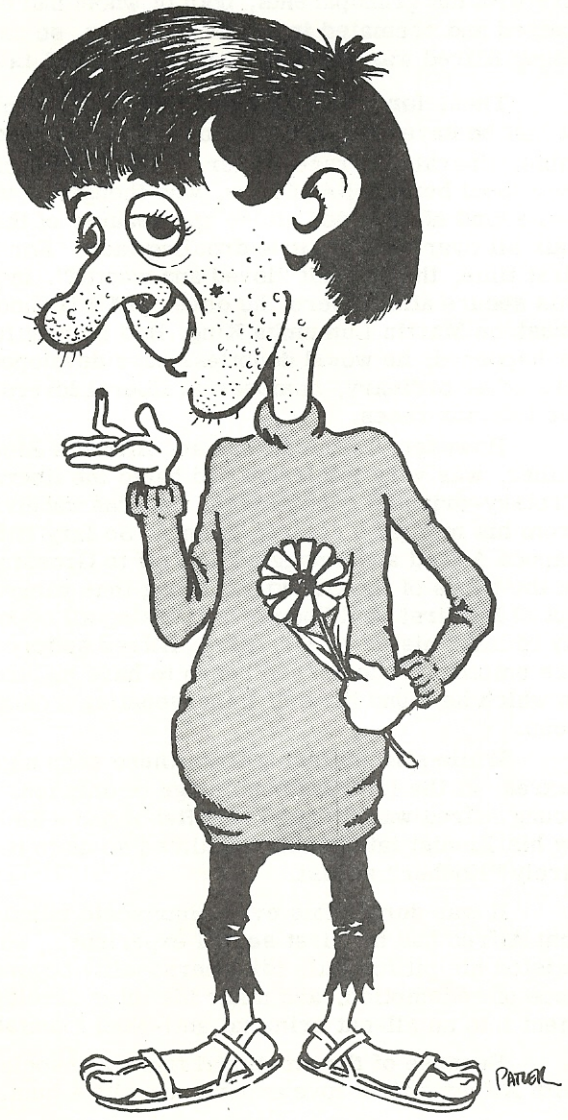
It was during this evil, phariseeic ritual that Alfred had his first sexual experience, which twisted his pitiful little idiot personality beyond all hope of redemption, and made his later development into an all-out criminal anti-Nazi inevitable.

Because of the emotional trauma associated with Alfred's first love experience with a human

being, which was not reciprocated, the boy naturally turned his affections on an ina nimate object. And the object of his fetishism turned out to be the Mogen David, the six-pointed star of David. This erotic aberration became so strong that Alfred soon wildly abandoned himself to orgies, during which he would sneak out and paint backward six-pointed stars on the doors of people he hated in the dead of night. Exhausted after these sensual orgies, he would crawl back into some alley and lay panting in a pile of garbage.

After this, it was only a question of time before young Alfred was leading his band of so-called, self-styled "anti-Nazis" in assassination attempts on those he designated "extremists", and his subsequent capture and confinement, where he continues to have soap nightmares.

Case No. 2, -The WEAKLINGS
Clarence Fauntroy Pansy



Young Pansy's case is not so complex as that of Neuman's. Clarence's father and mother were a couple of Unitarian love-mongers who got into the love movement during the McCarthy era, when they were falsely accused by McCarthy of being "reds" simply because they were living at Communist Party Headqaurters. This terrible injustice caused them to bend over backward to impart "love" to young Clarence, and teach him to worship Jews, negroes, spiders, poison and other creatures and things which were unfairly made the subject of generalizations and prejudice.

The result was that the Pansy boy was often caught playing hookey to hang around the YMCA men's room near the White House where he fell in with other anti-Nazi types. One thing led to another, until poor little Clarence began to pose for "physical culture" magazines and run with a gang of liberals called the "Loverboys".

It was while young Pansy was out with the "Loverboys" that he ran afoul of the law because of his anti-Nazism. While he and his gang were torturing a handsome young Marine they found, they discovered a Nazi Party card in his pocket. At once the gay giggles stopped, and they began to scream in hysteria, -in Yiddish. The police naturally picked them up, and, in spite of pressure from high officials, Clarence and his friends were sent off for observation.

Clinical tests show that Clarence and the others like him suffer from an enormous feeling of inferiority in the presence of real men, especially Nazis. They compensate for this inferior feeling by pretending that being a fairy liberal Jew and nigger-lover is much more manly and courageous than being a Nazi.

WHAT CAN BE DONE?

Dr. Schtudent von Judenscheiss feels that it is hopeless to try to "rehabilitate" these pitiful creatures. It is possible to rehabilitate murderers, rapists, child molesters, even traitors, says the learned Doctor, but these anti-Nazis are too far gone for any remedy except social surgery. They must be made harmless to innocent people. If we do not take a stand against these vicious anti-Nazis now, it may be too late, forever. We must never forget the story of Ester, and what happened to the noble Haman. We must be eternally vigilant, or it could happen again!

The Kosher Wolf & the Nazi House of Brick

The brave men and women who have had the foresight and the courage to stick with the American Nazi Party over the years can't be blamed for occasional attacks of depression and discouragement, especially when they see the fabulous financial success of the "nice" right-wingers, while we continue to struggle for survival from day to day. It often seems hard to believe that the time will EVER come when masses of Americans will actually stand up and cheer for "NAZIS". Sometimes I myself wonder whether we are TOO radical and revolutionary.

The cure for these moments, when faith may seem to fail, is perspective.

Humanity is condemned to live history just one second at a time, with its face shoved right into the mud of an infinitude of petty personal miseries which make it almost impossible for the average person to see the larger pattern into which his life fits. It takes an EXCEPTIONAL person to be able to force himself up to sufficient altitude above this personal "mud" of life to see and understand what is REALLY going on; to compare the pattern of the times with the vast panorama of history. The difference between our people and most other so-called "patriots" is that our people have been able to gain that "altitude" over their own personal problems and have realized that the "easy" and "popular" solutions to the mess in America and the world may look good now, from a vantage point in the "mud"; -but from the altitude of history, the pretense that Jews and niggers have nothing to do with Communism and that we can win by "nice" methods is plain, downright SILLY.

But the trouble is that it is impossible to STAY up at such an "altitude" for more than a short while at a time. Inevitably, the problems of money, domestic difficulties, business and plain survival force even the strongest of us to spend most of our time and effort just keeping our noses out of this "mud" of life long enough to get a breath.

When this miserable struggle in the mud gets rough, as it always does, it becomes doubly hard to keep a clear perspective of our historical situation, and even harder to keep one's FAITH that the long and HARD road we have deliberately chosen will ever lead to the lofty mountain peak we have been fortunate enough to catch sight of from time to time. It gets tempting to quit the effort to CLIMB UP, and stop off to take one's political "ease" in the shade and join the rest of lazy, cowardly humanity lolling around in the grass by the side of the road called "conservatism", "States' Rights" and all the rest of the euphemisms for avoiding the facts of "Armageddon" between the Jews andtheir dark armies of inferiors and the White Race.

It is part of my job as leader to help our kind of brave and foresighted people to keep sight of that mountain peak and keep us all CLIMBING, in spite of the steepness ofthe path, the attacks by the enemy and the roadblocks put up by those who pretend to be on our own side.

To help YOU keep the faith, I want to review here the many small facts which make up a big picture of APPROACHING VICTORY, -the big picture which I myself find it hard to see while trying to figure out how to get enough paper, for instance, just to print this REPORT, from day to day.

The best way to get perspective of history is to compress time; the people who lived through the Industrial Revolution, for instance, never realized what was happening to them until it was all over, but if one observes the pattern or life just before invention of the steam-engine, etc, -and just twenty or thirty years later, one can see clearly that a tremendous, historical change took place in the world almost unnoticed by the struggling millions who toiled in the "mud" of life.

It is the same with the political situation in America (and all over the earth) today.

Just twenty years ago, a "NAZI" movement in America was UNTHINKABLE!

Those who are old enough can check this for themselves by recalling those days and asking themselves what they would have said in those days, right after World War II, about anybody who would hang up a SWASTIKA and follow Adolf HITLER in the wide open! I myself, in those days, would have physically ATTACKED such a person, just as I now attack Communists parading with red flags in front of our White House.

But then came the inexorable march of the communists, -Czechoslovakia, Hungary, China, Cuba and all the rest. Here, under our very noses, they put over the integration movement and the Supreme Court began to make it impossible for America to defend itself from communist subversion. The climate in America began to change in what seemed like a gradual movement to the left, but which, in terms of history, in terms of hundreds and thousands of years, was actually a wild and wooly stampede, just short of open revolution.

The "marches" and "demonstrations" and especially the RIOTS of today were unthinkable

just ten years ago! Few Americans would have BELIEVED that queer and red niggers would be openly leading a "Black Revolution", --from the very WHITE HOUSE itself!

And what about ten years AHEAD?

The "conservatives" and "states' righters" etc are all basing their strategy on opposing the Jew and nigger methods of TODAY, while seven years ago, WE started building for opposition to the Jew and nigger methods in the 1970's. Like the third little pig in the story of the Big Bad Wolf, we have been building a political movement of solid BRICK and working hard at it, while the so-called "conservatives" are not only singing "Who's Afraid of the Big Bad Wolf" and dancing around in financial sunshine, but who are actively praising and even joining the WOLF, the JEW wolf! We find it hard, sometimes, to keep building up our brick house when it seems so easy and successful to build of sticks and hay like the "conservatives", but the day is fast approaching when old Jew wolf will come a-huffing and a-puffing. Already, the Kosher wolf is filling his lungs and blasting away at the Birch Society and will blow Welch's sticks and grass all over the landscape in a few short years.

When the Jew wolf starts huffing and puffing at OUR door, he will soon enough find himself in our STEW-POT, just as his counterpart in the old fable of the three little pigs.

And for the general public to understand our hard-boiled policy of building with Nazi "bricks" instead of conservative "straw", the only thing necessary is some good huffs and puffs by the Jew wolf they now pretend is such a good old pal.

THOSE JEW HUFFS AND PUFFS are already blasting around the earth!

And the Jew huffing and puffing is having the inevitable reaction!

In Austria, the Jews complain that almost ALL the candidates for political office are campaigning as "anti-semites"!

Swastikas are being painted, synagogues are blowing and burning up, and every Jewish manifestation is being OPPOSED, all over the planet.

The Jews reported that a survey, taken by the University of California, showed that TWO THIRDS of Americans are openly anti-semitic in one way or the other, while the other third is "latently" anti-semitic.

In Germany, the Jews privately report the quadrupling of "neo-Nazi" movements and Parties.

In New Jersey, the Young Republicans are singing the "Rat Fink" song:
"Riding Through the Reich,
In a Mercedes Benz
Shooting all the Kikes,
Winning lots of Friends (That line really bugs the
Rat tat tat tat, Jews!)
Mow the bastards Down!
Oh what fun it is to have,
The Nazis back in town!"

Georgetown University has been using a cheer for its basketball team of "sieg heil!", -from young college men dressed in Nazi regalia. The Jews have demanded and gotten the most abject apology, --but some of the young men have called me and told me that they started it as a "gag", but since they've seen how the Jews act, they want my book, literature, -and eventually membership.

I could list hundreds and hundreds of similar incidents and pieces of evidence, but our kind of people do not need to drink a whole bucket of sour milk to know that it's sour. While we have been occupied in the day to day struggle to survive physically and financially, the whole atmosphere in the world has become more and more RADICAL. The left is moving to the extreme left, and the right, therefore, has no choice but to move to the EXTREME right, -or die. And it IS moving!

Not only have I found less and less hostility to "Nazis", but more and more hostility to niggers and Jews. People in the mass are getting FED UP with marches, demonstrations, riots and the eternal hell-raising by "minorities".

When you get downcast from time to time, try remembering what YOU would have said about a "Nazi" Party just ten or fifteen years ago, and then think how you feel NOW. And then reflect that you have merely gone AHEAD of millions and millions of White, Christian Americans who are following in your footsteps. They are not against you, they are only BEHIND you!

When the Kosher wolf blasts the straw houses of the "conservatives" all to pieces, the masses of Americans will be eternally grateful to YOU and the brave little band who have built the solid brick structure of a NAZI Party, --and a big fire under the stew-pot to cook that Kosher wolf when he finally gets to OUR door!

Reductio Ad Absurdum

The niggers are going "ape" over this "civil rights" business.

Here's an AP story about the latest nigger progress in Pittsburgh.

Seems the garage used colors to identify the floors where cars were parked, to help the ignorant

niggers they hired to move the cars. The eighth floor was labelled "black", while "white" was one floor up on "black".

expected to do.

Negroes Protest Garage Markers

Pittsburgh, Dec. 22 (AP)—Use of colored markings to designate the levels of a downtown parking garage has touched off a civil rights dispute.

The United Negro Protest Committee wants a sign on the eighth floor, which is designated as black, changed.

Each floor is marked with a colored strip and a sign above it naming the color in English, German, French and Spanish.

Pittsburgh niggers can now rejoice in the certain knowledge that the ninth floor is "black", while the "white" is below and beneath the black.

FORTAS

After Kennedy was shot in Dallas, the FIRST thing LBJ did while still in Dallas, as newly sworn-in President, was call Jew, Abe Fortas, and say, "Abe, stand by!" So states an article praising this Jew in the Chicago Jew "Sentinel". The rest of the piece gives away the secrets which explain Mr. Fortas' participation and membership in Communist front organizations such as The National Lawyers Guild (listed by the Attorney General as Communist).

Seems Abe was one of the brightest students of William O. Douglas at Yale, the same pinko Douglas who is now Abe's collegue on the Supreme Court.

Douglas obviously liked the kosher-pink flavor of Abe's line at Yale, so when FDR brought Douglas to Washington to head Eleanor's new Securities Exchange Commission, Douglas hauled young Abe with him. Then Abe did a stint helping Henry Wallace in the Agricultural Adjustment Administration, where Abe met a lot more young New Deal Reds.

"Amazingly", Abe also helped Hiss set up the United Nations in San Francisco!

In 1948, when LBJ "won" election to the Senate by 87 votes and the matter was brought to the Supreme Court, Johnson hollered for good old Abe (who just "happened" to be such a pal of Justice Douglas). Douglas took personal charge of Johnson's case. Johnson won!

Abe was also the mastermind who engineered the tremendous financial empire and holdings of LBJ and "Ladybird".

When Jenkins got caught at his dirty sex business in the YMCA men's room, it was Abe who connived with the President and press to hush the matter up. It was Abe who was the first attorney for Bobby Baker until the case got too hot. And the Jew paper openly admits that it was Abe who "slipped past hospital guards to get Jenkin's resignation when news of the arrest leaked out".

During the McCarthy era, Abe was busy day and night defending every Red who came under scrutiny, often winning them huge sums in "back pay".

Working together with Chief Judge David Bazelon of the U. S. Court of Appeals on D. C. (also a Hebrew: see Who's Who in World Jewry, 1965), Abe was able to put over the "Durham Rule" which has turned loose literally thousands of vicious criminals, who cannot now be convicted if they were victims of an "uncontrollable impulse" when they committed their crimes, such as raping little baby girls, etc.

Perhaps the best way to sum up is to point out that Fortas' old lady smokes CIGARS! Honest!

(However, the Jew Sentinal hastens to point out that the cigar-smoking wife is NOT a Jewess. All the commie stuff, etc., about Abe is proudly set forth, as above. But the Hebes apparently don't want credit for Mrs. Fortas and her smelly stogies.)

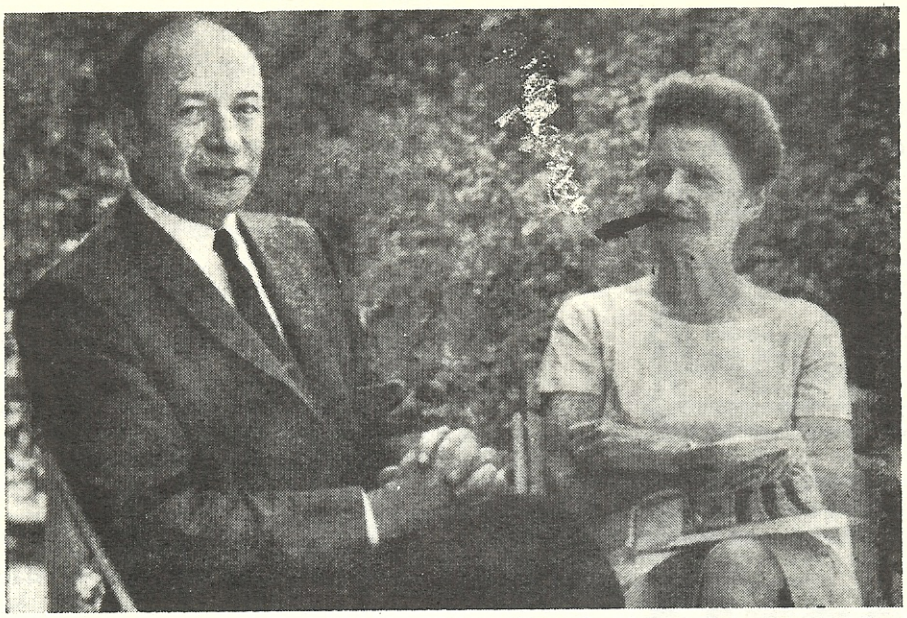
They Call Him 'Abe'

(The Story Behind About Abe Fortas, U.S. Supreme Court Justice)

By BERNARD POSTAL
(Reprinted from "The Jewish Digest")

It was Friday, Nov. 22, 1963. The switchboard operator in the Washington law firm of Arnold, Fortas and Porter plugged in a call from Dallas. The caller was Lyndon B.



SUPREME COURT JUSTICE ABE FORTAS AND MRS. FORTAS

Johnson who had just been sworn in as President of the United States, following the assassination of John F. Kennedy. The new President had a message for one of the firm's partners, Abe Fortas. The message was terse: "Abe, stand by!"

When President Johnson flew back to Washington, Fortas was waiting in the White House. Within minutes, Abe Fortas had been appointed the President's private liaison with Mrs. Kennedy. "See what she needs," he told Fortas, "and give her anything she wants—anything." It was Fortas who handled many of the Kennedy funeral arrangements, adhering strictly to the wishes of Mrs. Kennedy. Simultaneously, the President assigned Fortas to make plans for a sweeping investigation of the assassination, a study that led ultimately to the historic Warren Commission.

This son of immigrant Jewish parents who has been so close to Johnson that he has been summoned to duty at the White House at any hour of the day or night, has now been named a Justice of the Supreme Court of the United States. The appointment was no surprise because Fortas had previously declined Johnson's offer of a place in the Cabinet as Attorney General when Robert F. Kennedy resigned. What was a surprise was Fortas' acceptance since he was the youngest of five children of a cabinet maker, who fled from Czarist pogroms to England and then settled in Tennessee. At Yale Law School, from which he graduated with high honors in 1933, he made a deep impression on one of his professors, William O. Douglas, now his colleague on the Supreme Court. Fortas had been editor of the Yale "Law Journal" and when Douglas went to Washington as head of the Securities and Exchange Commission he brought Fortas with him. Simultaneously, Fortas was named as assistant law professor at Yale.

These were Fortas' stepping stones to fame. One of the young men of competence for whom the New Deal had a magnetic attraction, Fortas became one of the early "brain-trusters." He served in the legal department of the Agricultural Adjustment Administration as the attorney involved in pleading the early cases involving the AAA's constitutionality. He was general counsel of the Public Works Administration. Twice he was appointed Under-Secretary of the Interior as the right hand man of Harold Ickes. Repeatedly he tried to chuck his many jobs under Ickes, which included guiding public power policy, supervising the coal industry, overseeing U.S. insular possessions, reorganizing the laws of Puerto had previously indicated that he did not want to return to public service in which he has disinguished himself under three Presidents.

Justice Fortas is the fifth Jew to serve on the Supreme Court. The first was Louis D. Brandeis, nominated by Woodrow Wilson in 1916. The second was Benjamin N. Cardozo, a 1930 appointee of Herbert Hoover. Cardozo's successor was Felix N. Frankfurter, chosen by Franklin D. Roosevelt. And Arthur J. Goldberg, to whose seat President Johnson named Fortas, was nominated by President Kennedy. Like all of his Jewish predecessors on the highest court in the land except Cardozo, Fortas is of immigrant parentage.

Like Brandeis, Frankfurter and Goldberg, Fortas comes to the Supreme Court from the law rather than from the courts. Unlike Brandeis, Cardozo, Frankfurter and Goldberg, however, Fortas has not been prominently identified with Jewish causes. His family, however, has long been associated with Jewish life in Memphis and he himself is proudly Jewish.

Born in Memphis, Tenn., in 1910, Fortas worked his way through high school and Southwest University by playing the fiddle in a jazz band. He

Rico and tussling with the nation's petroleum reserves.

When World War II began, Fortas tried desperately to enlist in the Army, but President Roosevelt and Ickes intervened and refused to permit it. Roosevelt declined to accept Fortas' resignation, saying "you can best serve your country by continuing to do your job." But Fortas insisted that he "should not be denied the privilege of joining the fighting forces" and wangled his way into the Navy. But in two months he was discharged for a physical disability and resumed his public career. Under President Truman he served as legal advisor to the U.S. delegations to the United Nations conferences in 1945 and 1946.

One of the bright young men who were responsible for many of the major accomplishments of the New Deal, Fortas, at 35, left public service, after 12 years as a next-to-the-top echelon official, and established a Washington law firm with two other former New Deal legal wizards. In private practice, Fortas was an expert in perfecting appeals to the higher courts. One such appeal brought him into Lyndon B. Johnson's orbit. Fortas first met Johnson in 1935 when the future President was National Youth Administration chief for Texas and had worked with him occasionally when Johnson served in the House of Representatives.

In 1948 Johnson was elected to the U.S. Senate by 87 votes in a contest

that led to a complicated legal battle precipitated by the defeated candidate who challenged the results in the courts. Supreme Court Justice Douglas recommended Fortas as the lawyer to handle Johnson's appeal to the higher courts. When Johnson won, a firm friendship with Fortas was established. As Senate majority leader Johnson turned often to Fortas for advice and as Vice President he looked to Fortas as a valued trouble-shooter.

After Johnson succeeded to the Presidency, Fortas was widely reported to be one of Johnson's two or three most intimate counselors and advisors. Fortas played important roles in many key Johnson speeches and major decisions. It was Fortas who worked out the trust agreement on the Johnson family's TV holdings. It was Fortas who was the first attorney for Bobby Baker when the latter was first touched by scandal but stepped out of the case in order not to embarrass Johnson.

It was Fortas who induced the Washington newspapers to keep secret the arrest of White House aide and Johnson confidant, Walter Jenkins, in the midst of the 1964 Presidential campaign. It was Fortas who slipped past hospital guards to get Jenkins' resignation when the news of the arrest leaked out.

Although Fortas has been closely linked to Johnson for many years, his claim to the place on the Supreme Court rests not on his personal ties to the President but on brilliant legal accomplishments. He has long been admired and respected by the legal profession for his unique and precedent-shattering achievements.

Although he had built an immensely successful practice, he never lost his passion for justice. A champion of individual rights and civil liberties, he defended, without fee, a number of alleged "security risks" during the McCarthy era. In 1954 he scored a major legal coup by winning the repeal of the "right-wrong law" in the District of Columbia. This statute, used in almost every criminal court in the land, declared that a defendant may be judged "sane" if he knows the difference between right and wrong. As a result of the Durham case argued by Fortas a precedent was established which provides that the accused is not criminally responsible if his unlawful act was a product of mental disease or mental defect.

In 1963 Fortas made legal history again. A convicted man in Florida named Gideon had scribbled a note from his jail cell to the Supreme Court explaining that he had been denied legal counsel during his trial. The Court decided to hear his plea and appointed Fortas as his counsel. It was Fortas' brief and argument that persuaded the Supreme Court to rule in 1963 that state courts must provide indigent defendants with counsel in criminal cases.

Lawyers call Fortas the most resourceful, boldest and most thorough attorney they know. Possessed of an uncanny sensitivity to the meaning of words, his clarity and preciseness in speech are proverbial. In announcing his appointment to the Supreme Court, President Johnson called Fortas "one of this nation's most able and respected and most outstanding citizens, a scholar, profound thinker, a lawyer of superior ability and a man of humane and deeply compassionate feelings toward his fellow man, and a champion of our liberties."

A slight, meticulously groomed, quiet man, Fortas has an abiding passion for music. Every weekend he plays the violin with a private quartet of professional musicians. It was he who helped arrange the famous Pablo Casals cello festival in Puerto Rico. Casals, Isaac Stern and Van Cliburn are among his closest friends. Fortas also plays tennis and skis. His wife, who is not Jewish, is an expert tax lawyer, who smokes pencil thin cigars. Fortas has no children. He has made public service his family.

It is always upsetting to find that you have offended someone whose friendship you value, but it is doubly upsetting when the offense was unintentional on your part. It is now apparent to the management of this station that the appearance of George Lincoln Rockwell on the Chuck Boyles programs of January 5th and 6th offended and antagonized a great number of our friends and business acquaintances in this city.

We want to make it clear to all concerned that the management of this station has a high regard for the good will of the Oklahoma City community. Our greatest desire has always been to serve the needs of the community in which we live and work, and to fulfill the goals of responsible broadcasting. We therefore offer a sincere and heartfelt apology to any member of this community whom we offended by our presentation of Mr. Rockwell.

We realize that a letter of apology will not undo the hurt that has been done. However, we wish to assure everyone concerned that we did not take lightly our responsibility in presenting such a controversial person. We thought long and hard about allowing this man to appear on our station, and we weighed very carefully what we thought would be the effects of such an appearance. We finally concluded that it is important to know your enemies, and that in exposing Rockwell and his views to honest and open scrutiny, we were choosing the most effective way of discrediting him.

We were wrong. It is our honest opinion that our greatest mistake was in overestimating the effectiveness with which we were going to opppose Rockwell. Rockwell is a fanatic, but he is professional in presenting his fanatic views. We made a serious error in not realizing that the speakers who were invited to debate with him could not compete equally because of Rockwell's complete disregard for truth.

For those of you who did not actually hear the broadcasts, we should point out that we clearly identified Rockwell before and during his appearance as a hate-monger, a rabble-rouser, and a representative of a radical minority group. At no time did the station management or Mr. Boyles express sympathy for or agreement with any of his views. It was our intention to show him up for exactly what he is. Our performance did not live up to our intentions.

We are sorry.

← Here is photostatic evidence of one of the most amazing examples of the effectiveness of the "Nazi" techniques I have ever experienced.

A man named Chuck Boyles had me on his radio show in Denver a year or so ago, with the Jews having the usual hysteria. His listenership zoomed up to fantastic figures. I had to race along a highway between Denver and Boulder, where I was staying, at speeds of a hundred and over to escape some of the brotherhood squads of the Jews when I left the studio in the wee hours of the morning.

Boyles remembered the pulling power we have when he moved to a radio station in Oklahoma City, so one day he called me in Arlington and offerred to pay my expenses to come out to do a show on his new station in Oklahoma. I agreed, so he advertised the appearance for two days.

When I arrived, a huge mob surrounded the studio. At first we broadcast from inside, (the show was for four hours, from eight to twelve PM two nights in a row), but when the crowds around the studio clamored to be let in, the management not only did let them in, -as many as could fit, but they also PUT ME OUT IN THE LOBBY IN THE MIDDLE OF THE MOB! It was hell trying to do a rational interview show, answer phone calls and parry all the attacks at the same time as I had to watch the Jews and niggers in the mob.

Boyles and the management had imported a flock of "experts" to chop me up and make a fool of me. One was a psychiatrist and college professor who favored Red China and Ho Chi Minh, etc, and he did his best to make me look like a "brute" and a nut. Having experienced his type before, I knocked him around with relish, and the audience just loved it! Little by little, the callers started telling me juicy bits about him and the other experts. For instance, I learned quietly that the psychiatrist had been called in to psycho-analyzethe local zoo's elephant which had a bad mood. The great man gave it a shot and started to "soothe" it. The elephant keeled over dead. I had a BALL making fun of this head shrinker.

They brought on the rest of their experts, and I tore them apart with obvious gusto and pleasure, continually pointing out to the audience that the Jew side was really PITIFUL, -which it was, -and is. For every one of their sorry attacks on me, I let them have salvos of the TRUTH, FACTS they just couldn't escape, and it sent one Hebe "expert" into actual hysteria. He rocked back and forth and railed at me while I kept pointing out to the vast number of listeners that his screaming only showed he had no case, and screaming did not make one.

Knowing how these lovers of free-speech operate, I warned the tens of thousands of listeners over and over that th Jews would never answer the FACTS I presented, t would probably try to fire Mr. Boyles, the inte iewer who put me on, as a form of the usual Jew 'ERRORISM.

I went back to A lington and forgot about the wild episode for two ghts out there in Oklahoma, until I got a call from sweet little old lady out there, madder'n hell. The Jews had just gotten Mr. Boyles FIRED, sure ough! The little old lady wanted me to come ou there and help organize a mass protest to get M . Boyle's job back. She said hundreds of businessi n were trying to do some thing about it and war d some leadership. So I went back out there o the way to speak at Rice University in Houston. I t by that time, in typical White Christian fashi , our side had lost all its courage.

Once again I ret rned to Arlington, disgusted as usual with the cowa dice of my side.

But the Jews we en't satisfied with getting Mr. Boyles fired. (Wh ch was done on the air, by the way. Boyles repor ed for his show one night, only to have the statio blast him and throw him off the air as a public hum iliation to prove to the Jews that the station really oved them and was ready to do anything to "atone" or putting on such a monster as George Lincoln Ro kwell.)

All this wasn't e ough to satisfy the bloodthirsty Jewish lovers f "free-speech".

They forced the tation to take a half-page ad in the Oklahoma Cit Journal, in which the management literally GROVELLED before the almighty Jewish terror!

Those who still c nnot see why we call ourselves "Nazis" will do vell to study the wording of this public humiliation etter to the Jews.

Read it carefully and then think about these questions:

1. Can you imagine what the hundreds of thousands of people who actually HEARD the two nights broadcasts must have thought when they saw the radio station forced to fire Boyles and CRAWL, --as I accused the Jews of having the power to force?

2. What do you think happened inside of Mr. Boyles, the managment of the station and the White, Christian businessmen who were forced to knuckle under to these raving Jews?

3. What do you think will be the effect on the general public of seeing such a GROVELLING letter

as this, just for interviewing a man on a radio show devoted to "free speech"?

4. Can you imagine what it does to the Jews' morale when one man, whom they call a "nut" and a ridiculous figure, stands up against all they can throw at him for two nights in mob scenes, and the audience reaction turns out overwhelmingly FRIENDLY and sympathetic to a "NAZI"?

5. Who would have listened to the program at all if I had been Mr. George Jones of the "Americanism Society" or the "Patriot's Club", --instead of the awful, terrible, "George Lincoln ROCKWELL of the AMERICAN NAZI PARTY"?

6. How much CASH do you think it would cost to BUY that radio time and that advertising in the paper, -and how could it possibly be as EFFECTIVE if we paid for it, --instead of the Jew terrorists exposing themselves for what they ARE, -- at THEIR own expense???

NOTE: We have a perfect tape recording of the whole eight hours of battle on KTOK. If there is enough interest, I'll excerpt some of the juicier bits and make copies of the tape available. Let us know if you'd like this done.

Wisdom of the Wolf

There are a lot of things you learn in a lifetime which you "just know" and seldom ever really understand. When you suddenly find the dark area completely and brilliantly illuminated, I, at least, experience some of the joy of the blind man whose sight is suddenly restored.

Such mental "sunshine" just hit me in the form of a book by Farley Mowat (Little Brown, 1963), called "Never Cry Wolf", which I devoured on a recent tiresome automobile trip.

The book is by an official, scientific obsever for the Canadian "Dominion Wildlife Service", something like our own Department of the Interior. Mowat was ordered to study the habits of northern wolves to determine if it were the wolves who were exterminating the caribou on which much of the life cycle in Northern Canada depends.

Unlike many pedantic observers, Mowat did not confine his studies to laboratory experiments, statistics, second-hand reports and rumors. Mowat moved out onto the wild tundra in wolf country, ALONE, and did everything but live with the wolves. For almost a year, he watched every move of wolf families. In fact, one of the most fascinating parts of the book is where Mowat discovers the REASON for the way the male wolves go around lifting their legs--as dogs do. After scientific observation and calculation, Mowat noticed that the leg-lifting was not just done ANYwhere--but only on CERTAIN definite routes. Further, he noticed that the routes consisted of the BOUNDERIES of the area in which a certain family of wolves lived and hunted. He learned that the leg-lifting ceremonies were actually the POSTING of wolf-boundaries to their territory (a subject magnificently covered in Ardrey's "African Genesis"). Mowat, whose spirit of uninhibited search for truth is so marked as to lead me to believe he MUST be an unconscious "Nazi", then went further, to PROVE this theory. He went out one day and marked off his OWN bounderies within the wolf territory. He reports minutely on the actions of the wolves when they discovered his markers--and how they scrupulously respected the staked-out territory.

But the nugget of raw TRUTH I found in the book was an understanding of something I have long felt and sensed, but could never prove or even express.

The kind of people I can't stand--the conceited fat-heads called "liberals"--never tire of patting themselves on the backs for all the "progress" humanity has made, and they usually call themselves "progressives".

Let it be clear, here, that I am in no way coming on 100% for Rousseau's "noble savage" theories, which have been used and perverted into Communism by the Marxists and anarchists.

But, on the other hand, I cannot see how a man (or "men") is happier or has added anything significant to his life because he has a rocket instead of a horse, because he has an H-bomb instead of a battle-ax, because he has some green paper standing for nothing instead of some beautiful shells called "wampum" or because he has psychiatrists instead of witch-doctors. Not only that, but I believe, in many cases, the MATERIAL progress of the liberals; produces the opposite of progress in terms of the human spirit. I believe no age in history has produced so many miserably FRUSTRATED people as ours. Our people are "empty" as never before, in spite of all the liberal "progress" and our vaunted material gains. And this emptiness, I believe, is largely because we have turned our backs on our Creator, "Nature".

I could never express that throught to suit me before. Now I can, and so can you if you read "Never Cry Wolf". Mowat showed me that, just as strong and brave men today are cursed and hated as

"Nazis", so are wolves hated and unjustly cursed and lied about in the animal kingdom--and for just about the same reasons.

You would have to read the whole book to understand all the parallels between the way wolves are lied about and why--and the way "Nazis" are hated and lied about for the same reasons.

But I can give you an inkling by pointing out that our faithful, wonderful dogs are, biologically, basically, exactly the same as wolves. All of our dogs were bred from wolves. And what surprised me was to find that far from being the mortal enemies they are supposed to be now, early men and wolves were once warm friends except under unusual conditions. THAT'S HOW WE GOT DOGS! It was not until men began to be "capitalists" and keep sheep, and the wolves couldn't understand this relationship, that men began to hate and lie about the wolf. Until men and wolves got into quarrels over sheep and cattle, men and wolves hunted and lived together--as some of the Eskimos do even NOW.

Even this is not the final secret given to me in the book, however.

Mowat watched the wolf families minutely for over a year, and proved again and again that wolves, while they are indeed ferocious and terrible to their enemies, are the most loving family creatures on the face of the earth. Male wolves, unlike most human males, are faithful to ONE MATE--for LIFE! And the female will not tolerate other males beside her mate! Wolf fathers are LOVING and GENTLE beyond belief to their pups, helping the female carry and rear them and protecting them at the cost of their lives. I could multiply the facts for many paragraphs, but the main point is that the picture which comes forth from a scientific study of wild wolf life is a picture of the sort of blissful home-life we like to pretend exists among humans, but which I have found is almost non-existent. A wolf "husband-and-wife" show endless affection for each other, year after year, as long as they live! How many human couples show such a happy result of a human marriage?

There is one more fact to be added to this picture.

When you domesticate and tame wolves, they no longer exhibit these qualities of faithfulness, affection and solidarity in the family. Dogs are notoriously promiscuous, and wolf cubs raised "tame" ALSO BECOME PROMISCUOUS and are unable to maintain stable social relationships over a long period of time like their wild brothers.

When I put all this together, I believe I see WHY so many humans are "frustrated" and "unhappy" today in spite of our rockets and TV and H-bombs, etc., while a family of wild wolves, living in a hole in the ground, can be just overflowing with the kind of personal happiness dreamed of by every

normal human--year after year.

The Creator gave all creatures the natural, blind instincts they need to achieve happiness. They may not be able to get to the moon or make a television set, but they DO know how to LIVE. When you destort these natural instincts, as when you "tame" a wolf and make a dog of him, you destroy the most precious connection a living creature has, its connection with its Source--whatever you wish to call that great "Source".

The same thing happens to man.

It is, of course, beyond question, that we cannot go back to naked savagery and live like cave men.

There are too many things in civilization which are also precious to men--chief among which are culture and the pleasures of the mind.

But it seems to me that it is faily obvious, at the same time, that the OVER-CIVILIZATION of humanity in the name of "progress" has destroyed mankind's natural connections with his own instincts, with the blind understanding within which is part of his ancient heritage--with "God" and "Nature".

Modern, urban civilization has emasculated men--just as "taming" a wolf cub and making a "dog" of it deprives that little wolf of all its natural instincts to organize and maintain a "family".

Modern urban civilization has de-feminized women--making them ashamed of their great calling as mothers and driving many of them to become immitation males.

I can only repeat what I wrote above. The Creator gave all creatures the natural, blind instincts they need to achieve happiness. They may not be able to get to the moon or make a television set, but they DO know how to LIVE. When you distort these natural instincts, as when you "tame" a wolf and make a dog of him, you destroy the most precious connection a living creature has, its connection with its Source--whatever you wish to call that great "Source".

National Socialism is a conscious scientific effort to return to over-civilized men enough of Mother Nature's blessed instinctive wisdom and natural order to permit man, once again, like a wild wolf, to enjoy deeply the personal happiness given by the Creator to all His creatures who obey His natural laws.
